

ZyXEL Communications Corporation, No. 6, Innovation Road II Hsinchu Science Park, Hsinchu 300

To
ZyXEL Partners
Located within European Union

Hsinchu, Mrz-09

Statement for the compliance to the Regulation (EC) No. 1907/2006 – REACH and ZyXEL's Green Policy Statement

Since its inception, ZyXEL's mission has been sustainable business development and expansion while recognizing the importance of protecting the environment. The new policy announced stresses that commitment, noting: "The basis for this long-term business development is pollution prevention through a process of continual improvement and environmental protection awareness."

To accomplish this long-term goal, ZyXEL is committed to protecting the environment through: "Making better use of the Earth's resources," "Developing green products," "Improving production methods," "Reducing harm to the environment," "Complying with all laws," "Doing our best to prevent pollution by stressing environmental protection education" and "Promoting environmental protection awareness." ZyXEL believes that only in this way will it create a lasting viable business

We herewith confirm that **we fully comply with the regulation of ECHA (EC) No. 1907/2006 raised on June 1, 2007.** None of our products delivered to the countries belonging to the European Union does contain a substance listed on the candidate list published by the European Chemicals Agency (ECHA) on October 28, 2008 in a concentration above 0.1 % weight by weight (w/w).

Respectfully Yours,

Alan Cho
Quality Assurance Director
ZyXEL Communications Co., Ltd
