Pick A Bundle. No More Hassle

A bundle license consists of multiple services that are grouped together. They are designed for your best convenience when you need to ensure your network is empowered with holistic functionality such as seamless threat protection or full hospitality features. Pick the right bundle and there is no more hassle.

Firewall Series	Bundle	Security								Connectivity			
		License & Licensed Features								License & Licensed Features			
		Anti-Malware/ Virus	Web Filtering/ Content Filtering	Sandboxing	Reputation Filter	IDP/IPS	Application Patrol	Geo Enforcer	Email Security/ Anti-Spam	SecuReporter Premium	Managed AP Service	Hotspot Management	Concurrent Device Upgrade
													
		Scan files at the gateway for viruses and other threats	Block access to malicious or risky web sites	Cloud-based sandbox technology against unknown threats	Block botnet infection and prevent drive-by download from infected websites via IP and URL detection	Deep-packet inspection against known attacks from network	Automatically categorize and manage the network application usage	Manage network traffic by mapping IP address to geographical regions	Fast detection to block spam/phishing mail with malicious contents	Cloud-based security analytics and report with 30-day log retention	AP auto discovery and provisioning	Various Network Access Control	Top up allowed number of connected clients
